

CARE AND CLEANING

Inspecting

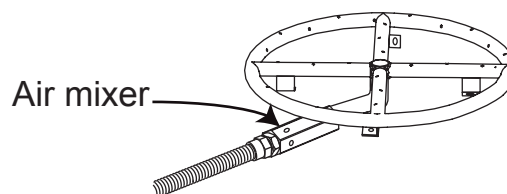

This outdoor fire table must be inspected regularly to insure that the product is safe to use and to extend product life.

WARNING

DO NOT inspect this outdoor fireplace until the fire is COMPLETELY out.

1. Check the burner to make sure it is securely in place.
2. Check the air mixer to make sure it is clear and free of insects, spider nests and other debris(see picture).
3. Check all gas connections for leaks.
4. Check ignition system to insure proper sparking.
5. Check components for any signs of damage, rust or excessive wear.
6. If damage to any component is detected, DO NOT operate until the proper repairs have been made.

WARNING

DO NOT tamper with this appliance. This is DANGEROUS and will void the warranty. Any part found to be faulty must be replaced with an approved part, confirmed by manufacturer. Contact ELEMENTI for technical support.

General Care and Cleaning

This outdoor fireplace should be cleaned regularly to ensure safe use and extend product life.

Note: After repeated use, a slight discoloration of the finishes may occur.

Table

1. Wipe exterior surfaces with a mild dish washing soap or baking soda, then rinse clean with water.

Stainless Steel

1. For general cleaning use warm water, soap, ammonia, or detergent apply with a soft cloth or Sponge
2. For finger prints or smears use 3M Stainless Steel Cleaner and Polish, Arcal 20, Lac-O-Nu, LuminWash, O'Cedar Cream Polish, or Stainless Shine, this will provide a barrier file to minimize fingerprints.
3. For stubborn stains and discoloration use 3M Stainless Steel Cleaner and Polish, Allchem Concentrated Cleaner, Samae, Twinkle, Cameo Copper Cleaner, Liquid Nu Steel, Copper's or Revere Stainless Steel Cleaner, apply using a soft cloth in the same direction of the polish lines.
4. While using in salt air environments we recommend cleaning all stainless steel surfaces at least every two weeks to keep the item in prime condition. Stainless steel is corrosion-resistant but it is not impervious to rust. Exposure to salt air and sea spray will cause surface rust if you do not care for your products properly. The best thing you can do to protect the stainless steel is to clean it frequently.

* Use of proprietary names is intended only to indicate a type of cleaner and does not constitute endorsement. Omission of any proprietary cleanser does not imply its inadequacy. All products should be used in strict accordance with instructions on package.

Storage

WARNING

DO NOT move or store this fire table unless the fire is COMPLETELY out and cool to the touch.

1. Turn gas OFF at tank connection. Remove tank and store in a cool, dry location outdoors, away from children.
2. Carefully remove rock filler and store components flat to protect them from breakage.
3. ALWAYS cover your outdoor fire table when not in use.
4. Store in a cool, dry location away from children and pets.

CARE AND CLEANING

Please see below for recommendations on maintaining your fireplace surface for years of extended use:

- Clean any spills immediately to prevent permanent surface(s) staining or damage to your fireplace.
- Blot any liquid spills with a clean, dry cloth to avoid spreading of the spill to the rest of the fireplace.
- Immediate cleaning of stains / blotting of spills also prevents absorption of such stains / spills into the surfaces, compared to if such stains / spills are left for extended periods on these surfaces.

How to apply a water based sealer:

1, This outdoor fireplace should be maintained regularly (normally 6 months) to ensure safe use and extend product life.

2, Please ensure all treatment with dust-free. Wipe the sealers on the concrete surface slightly with a soft rag, then wipe off the residual after concrete surface dries completely.

How to Clean your Fire table / Fire bowl surface(s):

1, Mix a mild dish soap into warm clean water, use a soft, clean cloth or sponge.

2, Then proceed to remove surface dirt, stains or mild spills.

3, Rinse all soap solution off from the surfaces with a damp cloth.

4, Dry off completely with a dry cloth to avoid water spots / water marks.

5, Regularly cleaning the fireplace surface will aid in a longer lasting product.

- DO NOT use petroleum-based or abrasive cleaning products.
- DO NOT use any harsh brushes / rough sponges when cleaning the fireplace surface(s).
- DO NOT slide products across the fireplace surface(s) to avoid permanent scratching and or damage(s).
- DO NOT place any food on the surface(s) of the fireplace.
- DO NOT eat from the surface(s) of the fireplace surface.
- Fireplace surface must be covered at all times when not in use.
- Cover your product when not in use to protect it from the elements.
- Store your product indoors during winter months.
- Avoiding extreme cold temperatures, as extreme cold temperatures may cause cracking of the tabletop.
